

HEAD of Engineering, LLC

Structural Engineering Analysis and Design
Repair and Retrofit of Buildings
Construction Expert Witness

DUNS: 101782644 CAGE: 8L8U5

Primary NAICS Code: 541330 - Engineering Services

Secondary NAICS Codes: 541490, 237990, 541350

About HEAD of Engineering, LLC

HEAD of Engineering, LLC, founded in 2016, is an Atlanta based firm. Our staff has provided structural engineering services since 1977, working at some of the most prestigious, multi-disciplinary and structural consulting firms throughout the USA and Saudi Arabia and we have great experience in the analysis, design, evaluation, repair and retrofit of building structures.

We have been contracted on teams with military and government agencies, universities and school boards, international airports and air carriers, banks, media corporations, hospitals and hotel chains and have engineered projects from proposal through preliminary design through preparation of construction documents through construction and through to project completion.

Our Core Competencies

- Structural Design and Analysis
- Structural Assessments of Existing Buildings
- Analysis and Design of Repairs to Storm Damaged Buildings
- Forensic Engineering and Analysis
- Failure and Damage Investigations – Weather and Age Related
- Construction Administration, Special Inspector and Threshold Inspection
- Strength Hardening (i.e. Hurricane and Tornado resistant)
- We know Construction and how to work efficiently with the Contractors
- Expert Witness/Litigation Assistance

Our Differentiators

- We know how buildings work and how to build them efficiently due to our intimate involvement throughout our projects.
- Our experience in the design and construction administration of all Building Types and Structural Systems.
- Our increased knowledge in how buildings behave under stress, up to and beyond failure
- Our understanding of building behavior and keen insight into more cost-effective designs.
- Through our knowledge of the behavior of structures we have developed a keen understanding of the art of renovating old and damaged buildings.
- HEAD of Engineering, LLC is based in Atlanta making all parts of the USA and beyond within easy reach.

Our Past Performance Notables

HEAD of Engineering, LLC staff has successfully delivered Government projects for NAVFAC, USAF, GSA, CDC and other Government agencies as senior staff for previous companies.

- Seymour Johnson AFB Clinic, Goldsboro, North Carolina
- Robins AFB Clinic Renovation and Structural Upgrade, Warner Robins, Georgia
- Georgia Military Academy Basketball Arena, Milledgeville, Georgia
- Billerica House of Corrections Expansion, Middlesex County, Massachusetts
- B-52 Two-bay Fuel Cell Maintenance Hangar, Barksdale AFB, Shreveport, LA
- B-52 Simulator Building, Barksdale AFB, Shreveport, Louisiana
- B-52 Hangar Door Catwalks Retrofit, Barksdale AFB, Shreveport, Louisiana
- Centers for Disease Control and Prevention Laboratory Building 110 and CEP, Atlanta, GA
- Beaufort Marine Air Corps Station Expansion & Renovation, Beaufort, South Carolina
- Jacksonville NAS, Renovation of Paint and Maintenance Hangars & Expansion of F-16 Naval Depot, Jacksonville, Florida
- Jacksonville NAS, Renovation of WW2 Buildings, Jacksonville, Florida
